Description

Gazpromneft Moto 2T is an engine oil designed for use in vehicles with two-stroke gasoline engines (motorcycles, mopeds, snowmobiles), garden equipment (mowers, cultivators, generators, motor pumps, snow blowers) and hand tools. Thanks to the use of a base for deep cleaning and a low-ash additive package, the oil has high anti-wear properties and protects the engine and exhaust system from ash and carbon deposits.

Advantages

- Reduces the formation of deposition in the engine and the exhaust system due to the high efficiency of the incineration.
- Stable ignition system operation, protects engine parts from overheating and wear due to low ash content.
- Reduces deposits due to the detergent properties of the oil.
- Fast preparation of the fuel oil mixture due to the high solubility of the oil in gasoline.
- Protecting the environment and the health of the operator by reducing the exhaust smoke.

Application

- Vehicles, garden equipment and hand motor tools equipped with two-stroke gasoline engines.
- Two-stroke gasoline engines with and without automatic oil feeding system requiring motor oils of JASO FB, ISO-L-EGB.

Physico-chemical characteristics

Indicator	Method	Gazpromneft Moto 2T
Kinematic Viscosity at 100 °C, mm ² /s	ASTM D 445	8.4
Pour Point, °C	ГОСТ 20287	-20
Sulfated Ash, wt%	ГОСТ 12417	0.06
Density at 20 °C, kg/m ³	ASTM D 4052	880
Viscosity Index	ASTM D 2270	93
Flash Point (COC), °C	ASTM D 92	220

Specifications

- JASO FB
- ISO-L-EGB

The company's management system is certified in accordance with international standards
